

BENEFITS

- Suntech's bifacial solar modules increase energy output by up to 30% compared to monocrystalline panels, resulting in 300 MW of peak capacity for the Suntech Farm, equivalent to the energy generated by 15000 households.
- 40 GW of zero carbon energy capacity, equivalent to the energy used by 20,000 electric vehicles (EVs) per year.

Toddington Harper, the CEO of Suntech
